

Chronopost Partner Integration

Commercial Invoice Exchange

The aim of this specification is to describe how the commercial invoices can be provide to/from a Chronopost Partner (Export or Import parcel flows)

Standard Option

1 **FTP**

The commercial invoices of parcel flow are dropped on Chronopost FTP server.

1.1 **File Transmission**

The file is to be transmitted over FTP using the designated FTP server :

Server address: <ftp.chronopost.fr>

The account & password are provided by Chronopost. Note that the login details are case sensitive.

The standard implementation is one FTP account by Partner. If necessary Chronopost can set up one account by destination or by origin.

Flow from Chronopost to Partner : The file will be uploaded to the /OUT directory.

Flow from Partner to Chronopost: The file will be uploaded to the /IN directory.

/TEST directory is used for testing (both cases).

1.2 **File Format**

Files should be transmitted as .pdf. There should be one file per shipment.

Quality of images received must be greater or equal to 300 DPI.

Quality of images sent is 300 DPI.

1.3 **File Naming Convention**

Files are named as follows:

Flow from Chronopost to Partner : *INV_DDD_ID15.PDF*

Flow from Partner to Chronopost : *INV_type_account_ID15.PDF*

Where

ID15: Chronopost parcel reference.

DDD : trigram of the destination (Iata, partner code, etc...provided by Chronopost)

type : EXP for Export, IMP for Import

account : account number

No use of semaphore mechanism.

1.4 Delete Method

The sender write the files.

The receiver get and delete the files.

Flow from Chronopost to Partner : The Partner delete the files.

Flow from Partner to Chronopost: Chronopost delete the files.

Other Options

2 Exchanges over Partner's FTP server

Possible, to be discussed with Chronopost IT Department.

3 Exchanges over Email

Not recommended / not an industrial solution.

Can be set up if necessary, only based on "one email per invoice". To be discussed with Chronopost IT Department.

4 Exchanges over AS2

Possible, to be discussed with Chronopost IT Department for technical details & AS2 certificate set up.

5 Exchanges over SFTP

Possible, to be discussed with Chronopost IT Department for technical details & set up.
