7. ADDITIONAL DOCUMENTS

7.1. NUMERICAL CORRESPONDANCE FOR BRITISH ZIP CODES

The zip codes of Great Britain, Ireland, Jersey and Guernsey consists of letters and digits. As the routing file only uses digits in the " DPD " routing mode concerning the product "Classic International", you need to base yourselves on the table below to find the correspondence between the British zip codes and the numerical value which will serve you as criterion of search in the routing file.

COUNTRY	COUNTRY CODE	ZIPCODES BETWEEN	AND	NUMERICAL CORRESPONDANCE
Ireland	IE	ALL ZIP CODES		00000
Jersey	JE	ALL ZIP CODES		03333
Guernsey	GS	ALL ZIP CODES		03333
Great Britain	GB	G83	G83	03333
Great Britain	GB	IM	IM	03333
Great Britain	GB	ZE	ZE	03333
Great Britain	GB	HS1	HS9	03333
Great Britain	GB	IV10	IV28	03333
Great Britain	GB	IV36	IV99	03333
Great Britain	GB	KW1	KW9	03333
Great Britain	GB	FK17	FK21	03333
Great Britain	GB	KA27	KA28	03333
Great Britain	GB	PA20	PA49	03333
Great Britain	GB	PH17	PH99	03333
Great Britain	GB	IN ALL OTHER CASES		01111

7.2. RULES FOR PORTUGAL AND NETHERLANDS ZIP CODES

The Portugal zip codes are now composed with 4 digits-3digits (ex. 1849-003) and those of Netherlands with 4 digits and 2 letters (ex. 1000AC). In the routing file, you must search for the zip codes by previously taking off the spaces and minus signs.

Example Portugal

: 1849-003 will be 1849003 in the routing file.

Example Netherlands

: 1000AC or 1000 AC will become 1000AC in the routing file.
